Job Title

A Flatiron School grad and Full-stack Software Engineer with experience working in JavaScript and React libraries as frontend and Ruby on Rails for API applications. Being a Food and Wine Industry Professional for 8+ years carried over all the tenets of being consistent to an unwavering degree. A natural innovator, a constant reinventor and firm believer in the importance of adaption in every setting.

Skills

Javascript • C++ • Go • ReactJS • Ruby On Rails • SQL • PostgreSQL • ORM-Data Models
JSON • HTML • CSS • Backbone.JS • Redux • Node.JS • Heroku • Netlify • Git Workflow

Projects

Beverage Inventory and Order Management Environment

(B.I.O.M.E.) - [Github](#) | [Demo](#)

A single-page application for organizing and ordering product from a beverage manager standpoint

- Utilized JSON Web Tokens and localStorage to store encrypted user information client-side.
- Configured Redux within React to store and manage all statey data
- Created a manifest system for updating many items on the backend with just one call to the API

[UOWeMe](#) - [Github](#) | [Demo](#)

A playful application used to keep track of money owed to you by others for various deeds

- Collaborated with a fellow programmer to make a practical planning app for both comedic relief and usefulness
- Utilized React Router to allow for smoother navigation around the site
- Leveraged JSON Server to provide a simplified API for CRUD

[DeckSwap](#) - [Github](#) | [Demo](#)

An application geared towards Magic: the Gathering enthusiasts, allowing users to rent pre-constructed decks from each other

- Incorporated basic Ruby code to make backend architecture straightforward and clean
- Implemented many tools available in the vast toolbelt of React to create a dynamic user experience
- Worked with multiple asynchronous functions to make a series of intricate calls from the front end to the backend

Experience

Domenico Valentino Selections

Field Sales Representative
NYC, NY
07/2019 - 03/2020

- Composed hundreds of well-written sales pitches to attract an ever-expanding customer base each week
